WME companies have more diverse boards of directors than the S&P 500 average which correlates with better financial performance.

In 2019, the cohort of publicly traded WME honorees outperformed the U.S. Large Cap Index by more than 10% over three years, and by 14.4% over five years.

Since 2007, Ethisphere has been measuring the World’s Most Ethical Companies® using our Ethics Quotient® Survey (EQ). Our EQ is a tool that global organizations depend upon as an independent, objective, third-party assessment of their programs, policies, and procedures, and as a critical element of resource planning. The data we collect is included in our proprietary database, upon which all resulting comparisons, benchmarking reports, consultations, and recognitions are based.

Benchmark your program against the World’s Most Ethical Companies data.
